

**Custom Designs
Reading Lites**

C2395

ideas collection

San Francisco Main Library

Description

Stylish reading lite suitable for libraries, banks, and other permanent table work situations. Translucent accent strip in top of shade provides visual interest. Fixture is intended for use in center of table with ballast mounted underneath. Length may be modified and fixture can vary from one to three support posts. Also available with asymmetrical reflector for mounting at edge of work area.

Construction

- Fixture body and shade are extruded aluminum
- Finish is painted to match architect's requirements
- Reflector is specular aluminum

Electrical

- Fixture is wired for four 27 watt compact fluorescent (PL, Biax, etc.) lamps
- Ballast is standard 120V (277V optional)
- Provided with remote ballast enclosure

Catalog Number

Four 27W (2G11 base) compact fluorescent

C2395

Options

Ballast: 277V ballast. To specify, add suffix **-277**.

How to Specify

Select catalog number and add suffix for desired option. Since these fixtures are usually integrated with the table construction, we recommend early coordination with the factory.

The Cole *ideas* collection presents designs which have been previously furnished as custom fixtures. They are not standard, stock models, but can be manufactured for other jobs as shown or with required modifications.
