ideas collection

Shown with optional fittings and additional fixture.

Clarence House / San Francisco, CA

suggested configurations

Description

A precise pendant with capability for directing illumination at up to 30 degrees from vertical. The basic configuration may be built into a multiple-lamp assembly with additional stems and connecting arms to follow architectural features.

Construction

- Steel stem, canopy, and wire cage assembly
- Painted matte black finish
- Prismatic glass lens
- Swivel with 30 degree tilt (maximum)
- Remote transformer furnished with enclosure
- Stems and connecting arms are 1/4" IPS steel schedule 40 pipe
- Connecting arms, T and cross connectors are furnished as required for desired configuration

Electrical

- Each fixture is wired for one 50 watt 12 volt MR16 reflector lamp
- Remote step-down transformer (120V-12V) is provided with surface mounted enclosure. Coordinate with Cole if opportunity exists to combine lamps on a single transformer
- Transformer enclosure is provided with knockouts for 1/2" or 3/4" conduit.
- Electrical contractor to provide electrical system components between transformer enclosure and fixture canopy.

Catalog Number

Lamp

One 50W 2-pin (GU5.3 base) MR16 12V incandescent lamp per fixture unit

M2194

Options

Alternate Painted Finish:

Medium bronze, add suffix **-MBZ**.
Other color, add suffix **-SP/** (color).

How to Specify

Select catalog number and add suffix(s) for desired options. Note that the design invites imaginative configurations utilizing numerous fixture units. The catalog number alone specifies only the design concept. Contact your Cole representative for assistance in developing complete assembly requirements and the proper specification.

The Cole *ideas collection* presents designs which have been previously furnished as custom fixtures. They are not standard, stock models, but can be manufactured for other jobs as shown or with required modifications.
